CALVIN OKER

calvinoker8@gmail.com | +256 776 729158 | Kampala, Uganda

PROFESSIONAL SUMMARY

Passionate and results-driven Full-Stack Software Engineer and AI Developer with over 5 years of experience designing, developing, and deploying scalable web, mobile, backend, cloud, and AI-powered applications for clients worldwide through freelance engagements. Proficient in modern frontend frameworks, mobile development technologies, backend architectures, artificial intelligence solutions, API development, cloud platforms, and microservices architectures. Experienced in building enterprise-grade applications using React, React Native, Flutter, Node.js, Django, FastAPI, Spring Boot, ASP.NET Core (C#), and modern AI frameworks. Strong expertise in software architecture, database design, machine learning integration, DevOps practices, cybersecurity, and agile software development methodologies.

CORE COMPETENCIES

- Full-Stack Software Development
- Frontend Development
- Mobile Application Development
- Backend API Development
- Artificial Intelligence Applications
- Generative AI Integration
- Large Language Model (LLM) Applications
- Retrieval-Augmented Generation (RAG)
- AI Agents & Workflow Automation
- Machine Learning Integration
- RESTful API Design
- Database Design & Optimization
- Microservices Architecture
- Cloud & DevOps Integration
- Software Testing & Debugging
- Software Architecture & Design
- Agile & Scrum Methodologies
- Performance Optimization
- Security Best Practices
- CI/CD Pipelines
- Technical Documentation

- Client Communication & Project Management

TECHNICAL SKILLS

Artificial Intelligence & Machine Learning

- OpenAI API
- Anthropic Claude API
- Gemini API
- Large Language Models (LLMs)
- Generative AI Applications
- Retrieval-Augmented Generation (RAG)
- LangChain
- LangGraph
- AI Agents
- Prompt Engineering
- Hugging Face
- Ollama
- Vector Databases
- ChromaDB
- Pinecone
- FAISS
- Natural Language Processing (NLP)
- AI Chatbots
- Machine Learning Integration
- Local LLM Deployment

Frontend Technologies

- React.js
- Next.js
- JavaScript (ES6+)
- TypeScript
- HTML5
- CSS3
- Tailwind CSS
- Bootstrap
- Redux
- Material UI

Mobile Development

- React Native

- Flutter
- Dart
- Android Development
- Mobile API Integration

Backend Technologies

- Node.js
- Express.js
- Django
- Django REST Framework
- FastAPI
- Spring Boot
- ASP.NET Core (C#)
- GraphQL
- REST APIs

Programming Languages

- Python
- JavaScript
- TypeScript
- Java
- C#
- Dart
- SQL
- Bash

Databases

- PostgreSQL
- MySQL
- Microsoft SQL Server
- SQLite
- MongoDB
- Redis
- Firebase
- Vector Databases

DevOps & Cloud

- Docker
- Kubernetes
- GitHub Actions
- CI/CD
- Linux

- Nginx
- AWS
- Microsoft Azure
- DigitalOcean

Tools & Technologies

- Git
- GitHub
- Postman
- Swagger/OpenAPI
- Celery
- Redis
- RabbitMQ
- WebSockets
- JWT Authentication
- OAuth2
- Jira

EDUCATION

Bachelor of Information Technology

Kampala International University, Uganda

Year of Completion: 2019

Class: Second Class Upper

PROFESSIONAL CERTIFICATIONS

- Certified Information Systems Security Professional (CISSP)
- Microsoft Certified Solutions Expert (MCSE)
- Microsoft Certified Solutions Associate (MCSA)
- Cisco Certified Network Associate (CCNA)

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Software Engineer & AI Developer | Upwork

Remote | 2020 – Present

Key Responsibilities

- Designed and developed scalable web, mobile, backend, cloud, and AI-powered applications for international clients.
- Built enterprise software solutions using React.js, Next.js, Django, FastAPI, Node.js, Spring Boot, and ASP.NET Core.
- Developed AI assistants, chatbots, autonomous agents, and workflow automation systems using Large Language Models (LLMs).
- Implemented Retrieval-Augmented Generation (RAG) architectures for enterprise knowledge management and intelligent search systems.
- Integrated OpenAI, Claude, Gemini, and Hugging Face AI models into production applications.
- Developed secure REST APIs, GraphQL APIs, and microservices architectures.
- Designed and optimized relational, NoSQL, and vector database solutions.
- Implemented authentication and authorization using JWT, OAuth2, and Role-Based Access Control (RBAC).
- Developed real-time systems using WebSockets, Redis, Celery, and asynchronous task processing.
- Containerized applications using Docker and deployed solutions using CI/CD pipelines.
- Conducted code reviews, software testing, performance optimization, and technical documentation.
- Collaborated with global clients using Agile and Scrum methodologies.

IT Network Administrator

Tugende (U) Limited, Kampala

2022 – Present

Key Responsibilities

- Managed and maintained enterprise network infrastructure and IT systems.
- Supported Linux and Windows server administration.
- Performed infrastructure monitoring, troubleshooting, and optimization.
- Conducted vulnerability assessments and implemented security controls.
- Supported database administration and reporting requirements.
- Collaborated with technical teams to improve operational efficiency and system reliability.

- Documented technical procedures and system configurations.

PROJECTS & PRACTICAL EXPERIENCE

AI Assistant Platform (FastAPI, React, LangChain, OpenAI)

- Developed AI-powered assistant applications using LLMs and Retrieval-Augmented Generation (RAG).
- Integrated document ingestion, embeddings, vector search, and conversational AI.
- Implemented intelligent workflows and multi-agent task automation.
- Developed enterprise document search and knowledge management systems.

AI Customer Support Chatbot (Django, React, OpenAI)

- Developed AI-powered customer support systems using Generative AI.
- Implemented contextual conversations and semantic search capabilities.
- Built analytics dashboards and escalation workflows.
- Integrated multi-channel messaging and notification systems.

Boda-Hailing Platform (Django, FastAPI, React Native)

- Developed a scalable ride-hailing backend architecture.
- Implemented JWT authentication, OTP verification, Redis, Celery, and WebSockets.
- Designed APIs for riders, drivers, payments, administration, and notifications.
- Integrated real-time GPS tracking and communication systems.

E-Commerce Platform (React, Node.js, PostgreSQL)

- Developed a full-stack e-commerce application with payment integrations.
- Implemented inventory management and analytics dashboards.
- Designed optimized database schemas and reporting systems.

Mobile Financial Application (Flutter, FastAPI)

- Developed secure cross-platform financial applications.
- Implemented transaction processing and mobile payment integrations.
- Built real-time notification and reporting systems.

Enterprise Management System (Spring Boot, React)

- Developed enterprise-level business management systems.
- Implemented microservices architecture and API gateway solutions.
- Built analytics and reporting dashboards.

ADDITIONAL KNOWLEDGE

- Artificial Intelligence
- Generative AI
- Large Language Models
- AI Agents
- Retrieval-Augmented Generation (RAG)
- Machine Learning
- Software Architecture Design
- Distributed Systems
- Microservices
- Cloud Computing
- DevOps Practices
- Cybersecurity
- System Administration
- Database Administration
- API Development
- Agile Development

KEY ATTRIBUTES

- Excellent analytical and problem-solving skills
- Strong software architecture and engineering capabilities
- Excellent communication and client management skills
- Fast learner and adaptable

- Strong attention to detail
- Ability to work independently and collaboratively
- Highly organized and deadline-oriented
- Strong leadership and mentoring abilities

ADDITIONAL INFORMATION

- Available for remote and on-site opportunities
- Willing to relocate and travel internationally
- Languages: English (Fluent)
- Eligible to work flexible schedules and across time zones
